

Technically speaking, it's simple.

Loop blends strength with modern design and lightweight mobility, delivering durability, style, and ease for hard-working lab environments.

Organic Shape

Ergonomically sculpted to cradle and support the body with natural comfort.

Reliable Mobility

Strong, lightweight continuous loop steel frame stands up to damage-inflicting impacts.

Simple Cleaning, Soft Curves

Zero edges plus a chemical-resistant polypropylene back keep disinfecting simple.

Modern Design + Custom Colors

Sleek tube frame and dynamic color palette add style to your space.

Purposeful Craftmanship + Affordability

Premium components in the simplest form at a lower price.

Features

- Loop's continuous loop steel frame is strong, durable, and lightweight
- Soft edges buffer damage-inflicting impact to the chair and surrounding environment
- Minimal joint hygienic design for easy cleaning and disinfection
- Organic chair shape receives and supports the user's body
- Chemically-resistant polypropylene back for ultimate cleanability
- Customizable color palette complements any lab environment

Construction

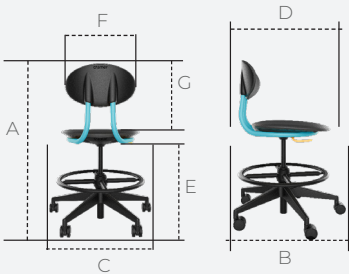

- 14-gauge powder-coated steel frame
- i+™ Polyurethane seat
- 27.75" durable nylon base
- Polypropylene back
- Field-replaceable seat cushion
- 30% glass-filled nylon seat pan
